

**A RESOLUTION OF THE ALBANY CITY COUNCIL DIRECTING  
STAFF TO PREPARE DESIGNS FOR A NEW CONFIGURATION FOR  
THE KAINS AND ADAMS BIKEWAY INCLUDING ADDITIONAL  
INTERSECTION TREATMENTS AND AUTHORIZING THE CITY MANAGER  
TO SUBMIT THE PROJECT FOR A GRANT AND EXECUTE AN AGREEMENT  
WITH THE CALIFORNIA DEPARTMENT OF TRANSPORTATION**

**WHEREAS**, during adoption of the ATP, the City Council determined that more analysis and public outreach was needed prior to consideration of the Adams Street Bicycling Route (Project 6) and Kains Avenue Bicycle Boulevard (Project 10) concepts to provide two-way cycling facilities parallel to San Pablo Avenue; and

**WHEREAS**, on September 16, 2019, the City Council approved designs for the pilot project and directed staff to include the project in the next update to the Capital Improvement Plan as a pilot with a duration of one year; and

**WHEREAS**, in January 2023, contractors for the City began installing the pilot, with substantial completion in February 2023 and minor additional work completed in May 2023; and

**WHEREAS**, the Transportation Commission has reviewed a staff-level analysis of the year-long pilot project and recommended that Council direct staff to prepare designs to implement the contraflow bicycle lane option while giving serious consideration to maintaining the existing pilot configuration and implementing the two-way through traffic with forced right turns configuration due to the Transportation Commission’s uncertainty and out of respect for absent Commissioners; and

**WHEREAS**, Caltrans provides planning grants to municipal governments for various types of transportation initiatives. In fiscal year 2024-2025, Caltrans will award approximately \$568 million in grants for local and regional active transportation projects that are consistent with their Active Transportation Program.

**NOW THEREFORE, BE IT RESOLVED**, that the Albany City Council does hereby:

1. Direct staff to prepare designs for a revised layout of Kains and Adams that includes: 1-way motor vehicle traffic, a contraflow bicycle lane, parallel parking, wayfinding signage, additional intersection treatments to facilitate safer crossings at all intersections, and additional measures to address vehicle volumes on the 700 and 800 block of Kains and the 900 block of Adams; and
2. Authorize the City Manager to submit a grant application for the Kains and Adams Bikeway to the California Active Transportation Program and enter into a funding agreement with Caltrans upon award of a grant.
