Dear Albany Parks, Rec & Open Space Commission,

In light of the recent fires in Los Angeles, and the many observations by fire experts that the same thing could happen in the East Bay, I urge you to **remove ALL of the eucalyptus trees from Albany Hill without delay.**

A confluence of strong wind and fire on the hill could destroy all of Albany. A west wind blowing gigantic eucalyptus embers over Albany would quickly overwhelm Albany Fire Department and all others in the area.

Eucalyptus are non-native, invasive, highly dangerous trees. The monarch butterflies can find plenty of eucalyptus or other trees elsewhere.

Please eliminate them without delay!

Thank you for your consideration,
Judith Forrest
