**Subject:** Comment on Fleet Electrification for 5/20 meeting

Dear Council members,

I hope I will be able to comment in support on Monday, but here is a brief message re. city fleet electrification:

I am with the rest of the CAC in support of this proposal. I voted against it because there was a "bundle" with three clauses: 1. prioritize EVs when purchasing vehicles; 2. install chargers to support these future EVs; 3. instruct staff to look into placing chargers on public land.

Because (3) had already been done as recently as my first CAC meeting (May 2023), I did not see the need to re-do this work.

The rest, I'm excited about and am grateful to my fellow CAC people for putting this forward.

Yours respectfully,

Katy on the Climate Action Committee
