Why did we enter into a contract with CSBA?

Quoted from CSBA Website:

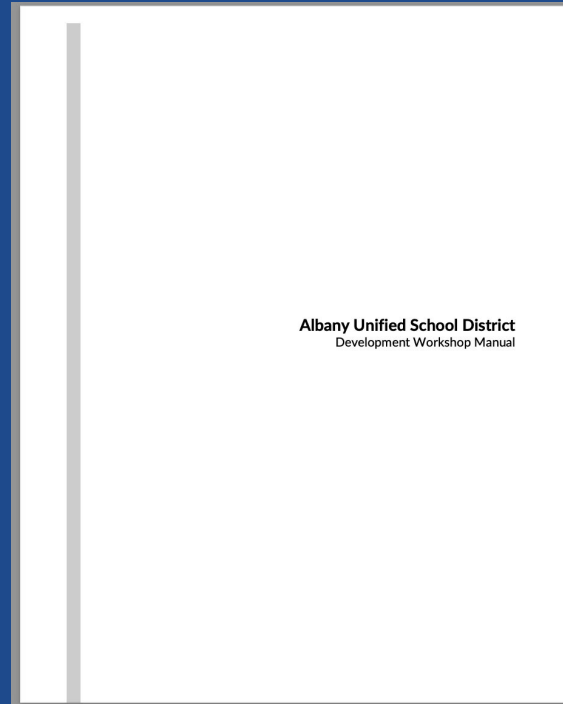

Effective policies serve as the core of successful school governance by providing long-term direction and defining implementation processes. *Districts are mandated by law to adopt over 90 policies, and many others are necessary to ensure legal compliance. Due to the passage of hundreds of new laws every year, district policies can quickly become out-of-date. CSBA's Policy Audit Program can help you make sure that your district's policies accurately reflect current state and federal law.*
