PROJECT

MARIN ES (4) TEMP TRAILER REMOVAL

Thank you for the opportunity to provide you with a price for the electrical portion of work on the above mentioned project. Bowen Electric is a union contractor and a member of the NECA. Our scope of work is based on the following:

Drawing and Specification Sections:

Scope of Work:

Area	Total
MARIN POWER SAFE AND REMOVE CONDUIT AND CABLE	\$ 4,990
MARIN DATA REMOVAL	\$ 3,119
MARIN FA REMOVAL	\$ 1,559
Final Price	\$ 9,667

Clarifications:

▶ FA Pricing excludes reconnecting existing devices that may be affected by the demolition	▶ All work to be done on Normal hours
▶ Data removal includes backbone cabling to nearest IDF or MDF	▶ FA Programming by others
▶ Power removal back to breakers serving trailers	▶

Thank you for your time in reviewing this proposal. If you should have any questions or require further information please call me.

Sincerely,
Jason Kaneko
Project Manager

PROJECT

MARIN ES (4) TEMP TRAILER REMOVAL

GENERAL CONDITIONS

We reserve the right to correct this quote for errors and omissions.

This quote covers direct costs only. We reserve the right to claim for impact and consequential costs.

This price is good for acceptance within 30 days from the date of receipt, or until job conditions substantially change.

We will supply and install all materials, labor and equipment as per your instructions.

Equipment and materials supplied by this contractor are warranted only to the extent that the same are warranted by the manufacturer.

The contractor shall not be liable for indirect loss or damage.

Unless included in this proposal, all bonding and/or special insurance requirements are supplied at additional cost.

If a formal contract is required, its conditions must not deviate from this proposal without our permission.

Anything (verbal or written) expressed or implied elsewhere, which are contrary to these conditions shall be null and void.

Work to be done during regular hours, Monday-Friday, excluding Holidays.

EXCLUSIONS

- Overtime, unless specifically included
- Fireproofing
- Painting and Patching
- Permit fees, unless specifically included

- Ceiling seismic support wires
- Telephone system equipment, cabling and terminations
- Computer network equipment, cabling and terminations
- Security system equipment, cabling and terminations
- Fire Alarm system equipment, cabling and terminations, unless specifically included
- Audiovisual system equipment, cabling and terminations
- Provisions for asbestos abatement
- w Refrigeration probe wires to be provided and installed by others.
- Disposal and removal of contaminated materials
- Standby support

w Bowen Electric will work on energized electrical systems only after it has been determined that the work can be performed safely.

w Bowen Electric will make every effort to convince our customers that our work should only be performed in a de-energized state for the safety of our electricians and the safety of the customer's equipment and electrically dependent operations.

w If it is determined that the customer is unable to de-energize the equipment, and if the Bowen Electric Superintendents have determined that the work can be performed safely, we will then proceed with the work under the direction of a written and authorized MOP, Energized Work Permit, using all necessary personal protective equipment (PPE) necessary to perform the work.
